

# NEW Heavy Duty Cost Effective Quick Release Connection Solution

For safe and reliable rack to vehicle connection

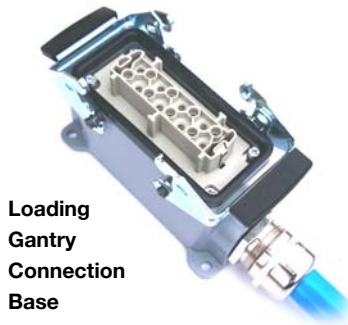

## Featuring Dynacheck® – Automatic and Continuous Self-Checking Circuitry

### DESCRIPTION

Scully is introducing its next generation quick release connection solution for connections between the Intellitrol overfill prevention and ground verification control monitor on the loading gantry/skid and the vehicle socket.

This solution requires no Sculcon junction box, therefore provides a significant cost saving for our customers.

The connector base is simply mounted to the loading gantry/skid and the 10 core IS cable from the Intellitrol unit is terminated directly. The poly plug cable assembly is supplied pre fitted with the mating connector for a quick, easy, and reliable connection.

Loading Gantry Connection Base

Quick Release Polyplug Cable Assembly

### FEATURES & BENEFITS

- Heavy duty connector to withstand harsh petrochemical environments
- Substantial double locking levers to ensure both mating connectors remain securely together, no more cable ties.
- Substantial cost saving for our customers compared to our previous quick release Sculcon junction box design
- Ideal for loading skids where a junction box can not be implemented due to space restrictions or cost.
- Reduces future maintenance and repair costs as the poly plug cable assembly can be replaced without the need for a qualified electrician
- Ensures periods of downtime caused by cable faults are kept to an absolute minimum as a new cable can be quickly and easily fitted.

### ORDERING INFORMATION

Description	Part Number
16 Way Heavy Duty Female Quick Release Connector Base Double Locking Levers (For direct mounting on the loading gantry or skid)	0100804
Black 4J 10 Pin Poly Plug, 6m 10 Core IS Cable, & 16 Way Heavy Duty Male Quick Release Connector (Double Locking Levers) Fully Assembled	0070110
Replacement Heavy Duty Male Quick Release Connector Double Locking Levers (Fitted on the cable assembly)	0100805
10 Core IS Blue Cable	0100168
Poly Plug Storage Bracket	0100756
